Compare Power is great! I was able to load in my current usage by connecting to my prior energy plan. Next, I was able to review all the energy provider options available to me with pricing and other details.

The ability to compare pricing based on my current usage was easy to use and very informative. It helped me find a more affordable plan when I was looking to establish power during my move.

There are two main reasons I give this company a 5 star rating. First, the app they provide is simple to use. Second, they facilitated the use of my usage data in calculating the costs of the various plans. A wonderful way around the complexity of energy pricing. (I am an Electrical Engineer) a plan.

[VIDEO: UNSCREW TEXAS](#)

Let's Unscrew Texas from overpriced energy plans.

All electricity is the same, no matter who you buy it from.
Find the company with the right plan for you.

Shop the plan, not the brand. It's time to stop paying more
for the exact same thing.

Q & A

Answers to the questions we hear often.

What electric companies service my address?

What if my provider goes out of business? Will my service stop?

How do I determine how many kWh I use?

Can I change my mind after I switch?

How long does the switching process take?

What if I have to move before the end of my contract term?

Does everyone have a choice in who provides their energy services?
